SKILLS

Proficient: JavaScript, Node, Express, React, Redux, Git, Sequelize, GitHub, PostgreSQL, HTML, CSS
Familiar: Socket.IO, TensorFlow's PoseNet, IBM Watson, Web Speech API, RecordRTC, SQL, Ruby, Firebase Storage, Jasmine, Chai, CanvasJS, Heroku, Webpack

PROJECTS

SpeakGood | https://speakgood.herokuapp.com/ | Team Project

A comprehensive web platform that records a user's pitch or presentation - giving specific feedback about the number of filler words used, and guides the user through a "power pose" activity to get them interview-ready
- Implemented the speech-to-text functionality with Web Speech API, RecordRTC, and Firebase Storage
- Developed the guided power pose practice with TensorFlow's PoseNet
- Built the back-end with Node, Express, PostgreSQL, and created the front-end with React and Redux

GutCheck | https://gutcheck-stackathon.herokuapp.com/ | Sole Developer

A web application aimed to support teachers and instructors – giving them feedback on how many of their students have understood the key points of their lecture in real time
- Real-time data visualization of student comprehension using Socket.IO and CanvasJS
- Chat room functionality using Socket.IO, with the capability for the instructor to control other chat history
- Developed with JavaScript, Node, Socket.IO, CanvasJS, Git, HTML, CSS, Moment.js, DOM manipulation

Best Cupcakes | https://cupcake-shop-app.herokuapp.com/ | Team Project

A fully-functioning e-commerce application designed to sell cupcakes
- Login and sign up capabilities, with persistent shopping carts for logged in and guest users
- Front-end created with React and Redux, and the back-end built with Node, Express, PostgreSQL
- Created front-end components and back-end routes to display inventory, the shopping cart, and checkout

WORK EXPERIENCE

Director of Development (Fundraising)   July 2015 – May 2019
Eye to Eye | New York, NY
- Supervised 3-6 team members and set strategy for all aspects of philanthropic revenue solicitation
- Tripled the organization's annual revenue target over 3 years - raised over $10 million in total
- Project manager for the organizational-wide migration and implementation of Salesforce CRM
- Led the Board Development Committee and Board Governance & Nominations Committee
- Previous internal positions included: Executive Coordinator (July 2015 – Jan. 2016), Development Manager (Jan. 2016 – March 2017), Associate Director of Development (March 2017 – May 2018)

Community Engagement Coordinator   Dec. 2013 – July 2015
College Access Now | Seattle, WA
- Project manager of organization's largest fundraiser with over 300 guests and $380,000 raised. Duties included: timeline management, sponsorship solicitation, event committee supervision, & speaker preparation
- Managed the organization's volunteer program of 200+ volunteers, from recruitment through recognition
